

Flash card set Instructions:

- Beginner 1 Level:

1. Show pictures to the child and ask for their Hindi names. If the child gets 8 out of 10 names correct, give him 8 marks.
2. Show pictures to the child and ask which Hindi letter its name begins with. Give him/her marks for the correct answer.

*These two games can be played between two or more children for fun and to encourage healthy competition.*

3. Place 10 cards in front of the child, which has at least three cards that start with a particular letter. If the child can find those three cards, give him/her full marks.
4. Choose 10 cards of five letters each, which have two pictures each for those letters. Ask the child to make pairs.
5. You may also give incorrect pairs of pictures and letters to the child and ask him/her to make correct pairs.
6. Spread the cards on the table. Announce a letter and ask the child to find a picture card that begins with the letter. If the child can find the card in five seconds, give him one point, and move onto announcing the next letter. You can complete the revision of all letters in 10 minutes only.

*You can make and play many other games with the help of these flash cards!*
