

Flash card set Instructions:

- Intermediate 1 and 2 Levels:

1. English names are not written on these cards. Therefore, children can practice remembering Hindi names written on the back of the cards.
2. The teacher can use any 20 cards just like playing cards. Ask the child to draw any card, and ask him to tell the Hindi name of the picture on the card. Continue to play the game in this manner.
3. The teacher will show any card to the child and ask him to write its Hindi name in his notebook. After playing this 10-15 times, give the cards to the child. He will check Hindi spellings, and find mistakes by himself.
4. Children are usually confused about maatra of small 'e' and big 'ee'. We can ask the child to make pairs of small 'e' and big 'ee' maatra, to help remember these names.
5. When a child practices maatra, taught in weekly class, for about 5-10 minutes daily, his knowledge of vocabulary and spellings will improve rapidly.
